Lali Dochiya

Kaplan International College London

Russia

Foundation Certificate in Business, Law and Science

“I chose to come to Kaplan International College London because I had read a lot of positive things about it. I love it here and have recommended the college to my friends!

“The college is really well organised and I have a personal tutor who gives me a lot of guidance. I feel that I am being well-prepared for university and am confident that I am learning the skills I need to progress to my degree.

“I have got involved in the social programme at the college and have made lots of friends. The other students are really nice and friendly. London is an exciting city to study in as it is very dynamic and there are so many different cultures here.”
